Group

ComfortDelGro Corporation's third quarter revenue decreased by \$24.0 million or 2.4% to \$991.4 million in the face of strong competition.

Operating costs fell by \$8.3 million or 0.9% to \$879.9 million despite an unfavorable foreign currency translation effect of \$5.3 million due to tight cost controls.

Net profit attributable to shareholders decreased by \$7.2 million or 8.2% to \$80.1 million for the quarter ended 30 September 2017. For the nine months to 30 September 2017, net profit attributable to shareholders declined by a smaller 1.6% to \$242.0 million.

ComfortDelGro Managing Director/Group CEO, Mr Yang Ban Seng, said: “The operating environment has been difficult. Although the public transport services business continued to grow, the taxi business has seen strong competition. But we are in this business for the long haul and we will continue to look at sustainable strategies through strategic alliances. We will also continue to look for opportunities to grow our business in Singapore and overseas.”

Operations Review

- Public Transport Services

At Group level, revenue from the Public Transport Services business increased by 4.5% to \$601.5 million from growth in the underlying business as well as a favourable currency translation from the stronger Australian Dollar and Sterling Pound.

- Taxi

Revenue for the Taxi business decreased by 11.2% to \$298.3 million due to increased competition.

- Inspection and Testing Services

Revenue for the Inspection and Testing Services business dipped by 2.2% to \$26.3 million due to lower business volumes.

Commentary

Revenue from the Public Transport Service Business in Singapore is expected to be higher. Bus service revenue is expected to increase with a full year contribution under the Bus Contracting

Model. Rail service revenue is also expected to be higher with the commencement of revenue service at the Downtown Line 3 on 21 October 2017. Rail fare revenue will be affected by the fare adjustment effective 29 December 2017 as announced by the Public Transport Council. Revenue from the Australia and the United Kingdom bus businesses is expected to be higher.

Revenue from the taxi business is expected to be lower as the operating environment continues to be challenging with the substantial increase in private hire vehicles.

Revenue from the automotive engineering businesses is expected to be lower.

Revenue from the inspection and testing services, and driving centre businesses is expected to be maintained.

Revenue from the car rental and leasing and bus station businesses is expected to be lower.

Whilst the operating environment continues to be challenging, we will continue to look for opportunities to grow our business and manage costs prudently.
